AMDT 0002

COST LIMITATION:

The target ceiling for contract award for construction is \$27,550,000 based on the funds made available for this project. The Government cannot guarantee that additional funds can be made available for award. Offerors are under no obligation to approach this ceiling.

AMDT 0002

DESCRIPTION OF BASE PROPOSAL ITEMS:

Item No. 0001 & **0008** "Primary Facility – Tactical Equipment Maintenance Facility (TEMF)" includes all construction work, and all applicable regulatory permitting and survey work and fees required within a line five feet outside of this building, except that work covered by Item Nos. 0005 & **0008**

Item No. 0002 & **0009** "Primary Facility – Organizational Storage Building (OSB)" includes all construction work, and all applicable regulatory permitting and survey work and fees required within a line five feet outside of this building, except that work covered by Item Nos. 0005 & **0009**

Item No. 0003 & **0010** "Primary Facility – Oil Storage Building (POL)" includes all construction work, and all applicable regulatory permitting and survey work and fees required within a line five feet outside of this building, except that work covered by Item Nos. 0005 & **0010**

Item No. 0004 & **0011** "Primary Facility – Hazardous Waste Storage Building (HWSB)" includes all construction work, and all applicable regulatory permitting and survey work and fees required within a line five feet outside of this building, except that work covered by Item Nos. 0005 & **0011**

Item No. 0005 & **0012** "Site Work" includes all demolition and construction work required beyond a line five feet outside the Primary Facilities; excludes cap and compaction grouting.

Item No. 0006 "Cap Grouting (300 cubic yards)" includes all mobilization/demobilization, fees, and permits to include all applicable work for completion. Unit price of material and labor will be used for any additions/deletions to the contract total. See Spec 31 32 23 for payment details.

Item No. 0007 & 0013 "Compaction Grouting (300 cubic yards)" includes all mobilization/demobilization, fees, and permits to include all applicable work for completion. Unit price of material and labor will be used for any additions/deletions to the contract total. See Spec 31 32 23 for payment details.

Item No. **0014** "Gas Connection Fee" includes all work associated with gas connection based on estimate provided by Clarksville Gas.

Item No. **0015** "Contract Duration" The Offeror shall propose a total integrated contract duration in number of calendar days after the Notice to Proceed (NTP) is received by the Contractor, whether via electronic means or hard copy, whichever is the earliest method of delivery. The total number of proposed calendar days for construction, ready for turnover, shall not exceed the number of calendar days shown above. The proposed duration shall become the required contract duration. The Government may issue the NTP via email or facsimile (FAX) or by other means. Day number 1 is the day after the date of receipt of the NTP.
